# How to choose a shredder:

It is essential to shred any of the following items:

- Financial information
- Business data such as marketing plans, customer information, personnel records
- Banking information
- Cancelled checks
- Credit and debit card receipts
- Pre-approved credit card applications
- Medical data
- Legal documents
- Any item showing a social security number

## Choosing the Right Shredder for Your Needs

Select your shredder based on the following criteria:

### 1. Daily Usage

Number of sheets shredded on average per day. Think about how much you'll shred, then double it! Most users shred twice as much as they think they will.

### 2. Security Level

Micro-cut shredders, a type of confetti-cut shredder, provides the highest security by shredding paper into tiny confetti pieces. They shred an 8 1/2 x 11 sheet into approximately 3,770 particles.

Confetti-cut shredders provide higher security by shredding paper into tiny confetti pieces. They shred an 8 1/2 x 11 sheet into approximately 300 chips. They also significantly reduce waste bulk.

Strip-cut shredders provide economical security by shredding paper into 1/4" strips.

### 3. Sheet Capacity

Maximum number of sheets that can be fed through a shredder at one time (based on 20-lb. paper). One of the factors in determining how quickly you can complete your shredding job.

### 4. Throughput

Sheet capacity x single sheet speed. Shows the maximum number of sheets that can be shredded in one minute.

### 5. Wastebin Capacity

Larger capacities allow for more shredding between bag changes and greater productivity.

### 6. Throat Width

Larger 15" and 16" throats allow for oversized sheets and disorganized stacks. 8 1/4" personal shredder throats accommodate items up to standard letter size.

### 7. Specialty Shredding

Look for shredders that can destroy these items:

Staples

Credit Cards

CDs/DVDs

Paper Clips

## Daily Usage Level Definitions

### Commercial Office Shredders

- From one to over ten users
- For continuous use by multiple people in an office setting

### Small Office/Home Office Paper Shredders

- From one to five users who shred 50-100 times per day
- For frequent small office or deskside use
- Solid steel cutters, paper clip and staple safe
- Quiet operation

### Premium Office Paper Shredders

- For medium duty users who shred 25-50 times per day
- For moderate home, home office or deskside use
- Durable, compact design
- Quiet operation

### Light-Duty/Personal Paper Shredders

- For personal users who shred 10-20 times per day
- Ideal for occasional home, home office or deskside use
- Compact, lightweight design

## Shredders

When choosing a shredder, capacity counts. Consider daily shredding needs, then double. Most users shred more than twice as much as they think they will.

Shred it and forget it.
